

# MST Series

The MST series is an extremely thin, lightweight and colorful group of Sunrise products. Perfect for countertops, display cases or as a wall accent, the MST provides a space-efficient way to parade text, art or information that will captivate the eye.

Each sign in the cluster of MSTs shown below is scrolling a different message to students from alumni and other financial benefactors of the Newhouse school. Referred to as the "Donor wall," the installation incorporates 3 different lengths and 4 different sections placed in a random wall layout consistent with the designer's vision.

Whether using the signs individually or in a network, the MST Series will deliver your message in a flash.

## Key Features:

### LIGHTWEIGHT AND COMPACT:

These signs are so petite they can be mounted with Velcro ©.

### EXTENSIBILITY:

MSTs are extendable up to 25 feet.

### SPECIAL EFFECTS:

Scrolling, fading, flashing and other visually dynamic text animations.

### CURVABLE SHAPES:

MSTs can conform to convex or concave structures with the same ease as other Sunrise products with a minimum radius of 2 feet.

## MST Series Product Details

This compact product line has infinite design possibilities and applications.

The group of MSTs on the top left illustrate one smart feature of these little signs; they take note of their position upon start-up and run their messages accordingly.

The sign in the middle is embedded into the countertop of a tradeshow kiosk.

**Sizes** – The MST has a thickness of 1/8 inch and is extendable in lengths of 16”.

**Weight** – Ministrips weigh an average pound per foot.

**Available Colors** – The MST series is available in the standard colors red, amber, blue, green, and white or full-color.

**Programming** – These signs are programmed via a standard Windows application requiring only one connection to program a single sign or a group of signs.

## ABOUT US

### Sunrise Systems

An industry leader since 1976, Sunrise Systems has built LED products for everyone from small businesses to major corporations. Our award-winning systems are installed in transit systems, financial institutions, malls, museums, theaters, casinos, convention halls, and ballparks worldwide. If you can imagine it, Sunrise Systems can create it – from tiny hand-held devices to soaring architectural installations with dynamic moving messages. We have the experience, the expertise and the passion to capture a vision and execute with success. Contact us today to learn how we can help get your idea up in lights.
