

MST Series

The MST series is an extremely thin, lightweight and colorful group of Sunrise products. Perfect for countertops, display cases or as a wall accent, the MST provides a space-efficient way to parade text, art or information that will captivate the eye.

Each sign in the cluster of MSTs shown below is scrolling a different message to students from alumni and other financial benefactors of the Newhouse school. Referred to as the "Donor wall," the installation incorporates 3 different lengths and 4 different sections placed in a random wall layout consistent with the designer's vision.

Whether using the signs individually or in a network, the MST Series will deliver your message in a flash.

Key Features:

LIGHTWEIGHT AND COMPACT:

These signs are so petite that shorter lengths can be mounted with Velcro®. Custom mounting options are also available.

EXTENSIBILITY:

MSTs are extendable up to 25 feet.

SPECIAL EFFECTS:

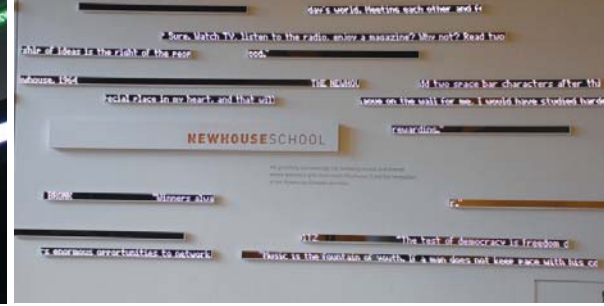

Scrolling, fading, flashing and other visually dynamic text animations.

CURVABLE SHAPES:

MSTs can conform to convex or concave structures with the same ease as other Sunrise products with a minimum radius of 1.5 feet.

MST Series Product Details

This compact product line has infinite design possibilities and applications.

The group of MSTs on the top left illustrate one smart feature of these little signs; they take note of their position upon start-up and run their messages accordingly.

The sign in the middle is embedded into the countertop of a tradeshow kiosk.

Character Height – All MSTs have a 1.5” character height.

Size – Enclosure is 1.9” high and less than an inch thick.

Weight – Ministrips weigh an average pound per foot.

Available Colors – Red, amber, blue, green, white or full-color.

Programming – These signs are programmed via a standard Windows application requiring only one connection to program a single sign or a group of signs.

ABOUT US

Sunrise Systems

An industry leader since 1976, Sunrise Systems has built LED products for everyone from small businesses to major corporations. Our award-winning systems are installed in transit systems, financial institutions, malls, museums, theaters, casinos, convention halls, and ballparks worldwide. If you can imagine it, Sunrise Systems can create it – from tiny hand-held devices to soaring architectural installations with dynamic moving messages. We have the experience, the expertise and the passion to capture a vision and execute with success. Contact us today to learn how we can help get your idea up in lights.
